Class: Six

Sub: English II

Time: 1 hr.

D- 25

F.M.:25

1. Read the text and do the activities that follow:

[5]

THE GREAT WALL OF CHINA

The longest, most amazing and most interesting wall in the world is the Great Wall of China. It is also the oldest.

The wall is more than 2,400 kilometres long. It stretches from the east coast to Kansu Province in the middle of China.

The emperors built the wall more than 2,000 years ago. The workmen only had simple looks. But the wall is 8 meters high. At the top it is 5 meters wide. Soldiers and horses could march along the top.

Nowadays many tourists walk along parts of it.

The Great Wall of China is the biggest man-made object in the world, and only one you can see from the moon. It gives across high mountains and deep valleys. It is made of stone and very hard bricks. Every 200 meters there are big towers 12 meters high. Why did China build a wall as big as this? They wanted to save their country from the Tartars. These people came from the north and tried to conquer China.

A. Answer the following questions:

- How long is the Great Wall Of China?
- What is it made of?
- How old is it?
- Who built it? Why?
- How high is the wall?
